- Difficulties being understood by others?
- Struggles with dressing or other fine motor skills?
- Fails to follow simple directions?
- Little interest in playing with other children/playing make-believe?
- Frequent falling or concerns with gross motor skills?

## Early Intervention makes a positive difference!

While parents are encouraged to address any developmental concerns with their child's pediatrician, FAC may be able to help now:

- Free and quick screening (20 to 30 minutes) to indicate if your child is on track with his/her speech and motor skill development.
- Highly-trained staff of physical, occupational and speech therapists to answer your questions.
- Early interventions and strategies designed for young children with programs in physical, occupational, speech and aquatic therapies.
